

## Pediatric Trauma Workshop

11 December 2024 | JW Marriott Marina Dubai

### Procedures Skill Station Objectives

- Understand the Indications for Pediatric Trauma Procedures**
  - Identify clinical scenarios requiring chest tube insertion, intraosseous insertion, needle cricothyrotomy, and surgical cricothyrotomy.
  - Discuss the specific conditions and injuries that necessitate these interventions in pediatric patients.
- Familiarize with the Equipment and Tools**
  - Learn about the specific equipment and tools required for each procedure.
- Master the Use of Direct and Video Laryngoscopes**
  - Demonstrate the proper technique for using direct and video laryngoscopes in pediatric patients.
  - Practice intubation to ensure skill proficiency and improve success rates in emergency airway management
- Gain Proficiency in Performing Pediatric Trauma Procedures**
  - Demonstrate the steps involved in chest tube insertion, intraosseous insertion, needle cricothyrotomy, and surgical cricothyrotomy.
  - Practice these procedures on simulation models to ensure skill acquisition.
- Recognize and Manage Complications**
  - Identify potential complications associated with each procedure.
  - Develop strategies to manage and mitigate complications during and after the procedures.

### Course Directors

**Joe Nemeth**  
United States

**Khalifa Al Qaydi**  
United Arab Emirates

**Nisreen Maghraby**  
Saudi Arabia

### Program

<b>08:00 - 08:30</b>	<b>Registration</b>	
08:30 - 09:00	Introduction	Joe Nemeth, Canada
09:00 - 09:45	Head Injury	Said Al Maqbali, UAE
